

Chase Us Around (feat. Madi Diaz)

Viceroy

Call me, call me
Need me here to help you call my name.
Tease me honey.
Waiting in the dark to come out and play.
Hold me till the whole world falls away.Falls away
Falls awayYou've got our escape all mapped out.
I've got the getaway car.
You are keeping me safe if we go down.
No one will find us where we are.Every night until we see the sun.
We let the beat chase us around, chase us around.
But I doubt we'll never give it up.
Just to let the beat chase us around.
You're on, lets go further.
Race me till the finish until we get caught.
You're gone, now it's over.
Thought that you would stay until the morning starts.
Wake up to the beating of my heart.Of my heart.
Of my heart.You've got our escape all mapped out.
I've got the getaway car.
You are keeping me save if we go down.
No one will find us where we are.Every night until we see the sun.
We let the beat chase us around, chase us around.
But I doubt we'll never give it up.
Just to let the beat chase us around.
Chase us around
Chase us around
Chase us around
Chase us aroundEvery night until we see the sun.
We let the beat chase us around, chase us around.
But I doubt we'll never give it up.
Just to let the beat chase us around.Chase us around
Chase us around
Chase us around
Chase us around
