

One Shot

Mario Vazquez

Verse 1:

If I were a builder
Then you'd have a castle
Drive on the highest mountain
And if I were a billionaire
I'd give you every material thing
But unfortunately all I have to give to you
Is an imperfect heart
But it's a heart that beats only for you

Chorus:

Listen to this girl if you give me one shot
I will love you forever now
No man will do you better now
Love is a risk
But if you give me one shot
I will show you your the only girl
In the world who can
Give me this feeling
Baby, that's how I feel about you
Your one in a million
I'd rather die than live without you
We can't miss
So if you give me one shot
We can do it girl {we can do it girl} do it girl

Verse 2:

I'm talkin' 'bout love in the mornin'
Just like you want it
Anything you need you can call me for it
Now girl I'm only human
I'm full of many faults
I'm guaranteed to fall short (guaranteed to fall)
But you'll never hear about me cheating
Cuz I never would betray your trust
No matter what
I will look to you and only you for love
I treat your soul like it was mine
What a privelege to me to breathe your air
Doesn't that say that I care?Chorus:
Listen to this girl if you give me one shot
I will love you forever now
No man will do you better now
Love is a risk

But if you give me one shot
I will show you your the only girl
In the world who can
Give me this feeling
Baby, that's how I feel about you
Your one in a million
I'd rather die than live without you
We can't miss

So if you give me one shot
We can do it girl {do it girl} do it girl
Bridge:
I'm talkin' all my heart
All my soul
Always stay
Never go
Ohhh yeah

But unfortunately all I have to give to you
Is an imperfect heart
But it's a heart that beats only for you
Chorus:

Listen to this girl if you give me one shot
I will love you forever now
No man will do you better now
Love is a risk

But if you give me one shot
I will show you your the only girl
In the world who can
Give me this feeling
Baby, that's how I feel about you
Your one in a million
I'd rather die than live without you
We can't miss

So if you give me one shot
We can do it girl {do it girl} do it girl
I'm talkin' 'bout everyday
Everynight

The rest of your days
The rest of your life
Chorus:
Listen to this girl if you give me one shot
I will love you forever now
No man will do you better now
Love is a risk

But if you give me one shot
I will show you your the only girl
In the world who can
Give me this feeling
Baby, that's how I feel about you
Your one in a million
I'd rather die than live without you
We can't miss
So if you give me one shot

We can do it girl {do it girl} do it girl
