

Otis

Houndmouth

Oh, my Otis won't you come back down
I'm on my way but I need a little time
Shook my soul and you saved my life
I'm on my way but I need a little time
I need some love from a Georgia man
Bang it out in Dawson
I get 'em and I lost 'em
Part-time preacher in the travelin band
That sugar on his shoulder
Oh, my Otis won't you come back down
I'm on my way but I need a little time
Shook my soul and you saved my life
I'm on my way but I need a little time
Save me up and break my heart
Those cigarettes and coffee
Look at the man he's got me
Big ol' ranch keeps us apart
And that train California
Oh, my Otis won't you come back down
I'm on my way but I need a little time
Shook my soul and you saved my life
I'm on my way but I need a little time
Sugar in the morning
Gotta get on up
Listen to the sound
You gotta get unplugged
Oh, my Otis won't you come back down
I'm on my way but I need a little time
You shook my soul, you saved my life
I'm on my way but I need a little time
Oh, my Otis won't you come back down
