

# Act IV: You Don't Need a Witness

## The Sound of Animals Fighting

Before, I would've let you know  
Your intentions seem right  
For now I feel content with what we've done  
For now I feel content with what we've...  
Thank you for the answers  
At the bottom of that  
You said all the things you could say  
What about the base runners  
We've settled on a distance  
It's glorious  
It's glorious  
This is my reaction to your mistake  
Just lead the way to your fate  
I'm begging for attention I've opened the door  
Your picture frame is cracked  
And we've warned you  
The picture frame is cracked  
I keep on wanting you to find  
Your picture frame is cracked  
I give one more year  
Thank you for the answers  
At the bottom of that  
You said all the things you could say  
What about the base runners  
We've settled on a distance  
It's glorious  
It's glorious  
This is my reaction to your mistake  
Just lead the way to your fate  
I'm begging for attention I've opened the door
