

# Never Make Your Move Too Soon

Bonnie Raitt

Three days of snow in a burnin' hell  
Bet you were wonderin' where I am  
Rang that number all night long  
Got no comfort on the telephone  
Went out and caught me a midnight flight  
Thought a little lovin' made it all alright  
But the landlord said you moved away  
You left me all of your bills to pay  
Look out baby  
I think you might've made your move too soon  
He left me with a cheap old car  
Livin' in Vegas ain't too hard  
I ran it up to about 15 grand  
Counted it out and held it in my hand  
That kinda word will get around  
I met the law and they called your bond  
I hear ya knockin' baby at my door  
But you don't live hear no more  
Oh no I think he made his move too soon  
I've been from Spain to Tokyo  
From Africa to Ohio  
I never try to make the news  
I'm just some man who sang those low down blues  
I take my lovin' everywhere  
And I come back to know you still care  
One lover here, one love behind  
One in my arms, one on my mind  
One thing baby  
I never make my move too soon  
Baby, never make a move too soon  
Oh your the devil in this, baby  
We never make a move too soon  
Too soon
