

# Make a Shadow

Meg Myers

Wide awake, wide awake  
It all gets so hard  
Wide awake, wide awake  
It all gets so hard Would you take my hand and make a shadow?  
Would you take my hand and make a shadow? A little, I want to be a kid again  
Little, don't tell me this is home. I'm only only in the only only in the in the shadows!  
I'm only only in the only only in the in the shadows!  
My heart is fire!  
My heart is young!  
I'm only only in the only only in the in the shadows! Run away, run away  
Let's sleep tomorrow  
Run away, run away  
Let's sleep tomorrow Where the city floats we'll build our castle  
Where the city floats we'll build our castle A little, I want to be a kid again  
Little, don't tell me this is home  
I'm only only in the only only in the in the shadows!  
I'm only only in the only only in the in the shadows!  
My heart is fire!  
My heart is young!  
I'm only only in the only only in the in the shadows!  
We gotta wake inside this shadow  
Don't get old, don't get old!  
We gotta wake inside this shadow  
Don't get old, don't get old!  
We gotta wake inside this shadow  
Don't get old, don't get old!  
I'm only only in the only only in the in the shadows!  
I'm only only in the only only in the in the shadows!  
My heart is fire!  
My heart is young!  
I'm only only in the only only in the in the shadows!
