

# Close Enough

KStewart

I don't need to know what you're doing baby  
When you're never on the time  
Don't know  
You just sit there feeling sorry for yourself  
Leading??? on the phone You wanna love me  
Nobody else but you  
You wanna love me  
Nobody else like  
But I know deep down that you're right let's feel the same  
Yeah, yeah  
But I know that I'll never gonna see the day  
Stop, hold, bring me a little closer baby  
I'm hot, hold  
Don't you miss us kissing baby  
I get old, all the days you're missing  
You won't get me giving my love  
Nobody else like you  
Nobody else like you  
Nobody else like you  
Nobody else like you I don't think you??? baby  
Definitely not anyone, no, no  
Resignation part of what that simple past  
I bet you wish you can forget  
You wanna love me  
Nobody else but you  
You wanna love me  
Nobody else like  
But I know deep down that you're right let's feel the same  
Yeah, yeah  
But I know that I'll never gonna see the day Stop, hold, bring me a little closer baby  
I'm hot, hold  
Don't you miss us kissing baby  
I get old, all the days you're missing  
You won't get me giving my love  
Nobody else like you  
Nobody else like you  
Nobody else like you  
Nobody else like you  
Stop, hold, bring it a little closer  
Baby I'm hot, hold  
Don't you miss us kissing  
Baby I get old, all the days you're missing

You won't get me giving my love  
Nobody else like you  
Nobody else like you  
Nobody else like you  
Nobody else like you
