

Grendel, Snowman

Fu Manchu

Casts his shadow miles across the sun
Keepin' them in sight when they run
All of a sudden we hear the 4 send
Trackin' 50 feet above my head

(chorus)

Like we seen it so... there it goes x2

Beam in grip - for years
never found... we here
taking giant strides upright
no remains, they die

(chorus)

un-iden-ti-fied(repeated till end)
