

Life Is Short

Ski Mask the Slump God

Life's short smoke a port on a port
In New York calculating like a dork
Kill Bill, tracksuit, 'preme shorts
Life's short what it's worth, wrist work
Life's short smoke a port on a port
In New York calculating like a dork, bitch
Kill Bill, tracksuit, 'preme shorts
Life's short what it's worth, wrist work I, can't, pocket an L from my enemy
You, won't, suck up or fuck up my energy
Chef, boyardee, bitch I'm whippin up sauce, ya see
Down, to the, bullshit you talking the jealousy
Ice cubes on a nigga neck like is we there yet
Mac, turn your guts to macaroni wet
Good pussy sound like macaroni best wet
Never let another nigga try yo set
Wanna be the best don't hold your breathe
Looking at my garments and they stripped like ness
Life's short smoke a port on a port
In New York calculating like a dork
Kill Bill, tracksuit, 'preme shorts
Life's short what it's worth, wrist work
Life's short smoke a port on a port
In New York calculating like a dork, bitch
Kill Bill, tracksuit, 'preme shorts
Life's short what it's worth, wrist work
