

# Spread a Little Love

## Havana Brown

Do you feel it?  
It's in the air tonight  
With every beat it  
With every step I come alive Like a rainbow  
Let your colors out  
And forever lost in paradise Spread a little love  
If we spread a little love we'll never die  
Spread a little love  
If we spread a little love we'll never die Hearts on fire  
Don't let them get you down  
Just stay higher  
Keep on going with every sound  
Like a rainbow  
Let your colors out  
And forever lost in paradise Spread a little love  
If we spread a little love we'll never die  
Spread a little love  
If we spread a little love we'll never die We'll never die Do you feel it?  
It's in the air tonight  
And forever-ever-ever-ever Spread a little love  
If we spread a little love we'll never die  
Spread a little love  
If we spread a little love we'll never die  
Spread a little love  
If we spread a little love we'll never die  
Spread a little love  
If we spread a little love we'll never die We'll never die
