

# On An Island

David Gilmour

Remember that night...  
White steps in the moonlight  
They walked it too...  
Through empty playground, this ghost's town  
Children again on rusting swings getting higher  
Sharing a dream  
On an Island... it felt right  
We lay side by side  
Between the moon and the tide  
Mapping the stars for a while  
Let the night surround you  
We're half way to the stars  
Ebb and flow  
Let it grow... feel the warmth beside you  
(guitar solo)  
Remember that night  
The warmth and the laughter  
Candles burn...  
Though the church was deserted  
At dawn we went down through empty streets to the harbour  
Dreamers may leave ...but we're here everafter...  
Da da da da da...  
Let the night surround you  
We're half way to the stars  
Ebb and flow  
Let it go... feel the warmth beside you...  
(guitar solo)
