

Die Wild

Dia Frampton

If I never get sober, fuck it
The heart wants what it wants
If I never get over you, fuck it
Well, I just wanna be blue sometime I don't wanna get better, I wanna burn like the Fourth of
July
A little bit I got to fill me up, a little bit of spit in my eye I just wanna die wild
I just wanna die wild
I just wanna die wild If there is no heaven, fuck it
You can sleep with me tonight
We can all just be tragic or lucky
Beneath the faded stars
I don't wanna get better, I wanna burn like the Fourth of July
A little bit I got to fill me up, a little bit of spit in my eye I just wanna die wild
I just wanna die wild
I just wanna die wild You either take your wins or bet it all again
But I was never good at settling
And I will break my heart just to feel it stitching up
And I will leave every cage rattling 'Cause I just wanna die wild
I just wanna die wild
I just wanna die wild
I just wanna die wild
I just wanna die wild
I just wanna die wild
I just wanna die wild
I just wanna die wild
I just wanna die wild
I just wanna die wild If I never get sober, fuck it
The heart wants what it wants
