

Big Shot

Dr. John

I know you're holding, but I hold it down
Don't over sell it, you can hang around
 Never been, done like I came
 Ain't never gonna be done again
 Ain't stuck up, don't put on the way
Bust some kush, I never split the ash
 It never was, never gonna be
 Another big shot like me
I'm the big shot, landing the cut
 For you to see,
Let me and you, go awesome ways, yeah
I do your thang in my own kinda style
If I don't kill you I'm shoot to kill ya
Got the remedy that's sure to heal ya
 It never was, never gonna be
 Another big shot like me
I'm the big shot, landing the cut
For you to see, You don't ... second line, ...
Stach you up like you up make you smile
 ... don't leave home, ...
 Send you ... priest,
 ... gold diggers running ... that's my
Hit you out, holding a ... I miss ya
So hang you off, shut them off that's right
 ... when I say goodbye
 ... and for you would care
I can rough and tough it if you like it bad
 It never was, never gonna be
 Another big shot like me
 It never was, never gonna be
 Another big shot like me
 It never was, never gonna be
 Another big shot like me
I'm the big shot, landing the cut for you
 To see .
