

# More Energy

## Rebelution

This time well do it like we mean it  
Straight up and real, live and direct with some meaning  
I wanna feel you like a subconscious  
Feeling from my head to my toes  
Soul revealing  
Go on and give a little more  
And 'cause I fiend for it, I'll do it for sure  
You're in my area  
Welcome to the show  
Strictly unstrict we let loose to get going  
But I will give  
All of my heart and my emotion  
To spread around the cure and ultimate potion  
Music from the soul  
Let it be noted  
I'm lifted  
In the zone  
Never sugar coated This is real love  
For what you're doing  
I love the passion, yes  
I love what you're pursuing  
I must confess, because  
I knew that I could do it  
And I'm feeling this exchange  
Hope you like the viewing  
She said  
Give me something I can move my hips to  
Something different, something fresh, something brand new  
Give me something to ignite my way  
'Cause I need it real badly today  
Won't you give me a little bit more? Give a little more  
Of your energy  
Need a little more  
So I can feel it through my pores That's why I'll do it the only way that I can say it  
Put it in a style  
Put it up on display  
This is real love  
Never a burden  
'Cause I'm strong-minded  
Resolute and I'm determined  
She said  
Give me something I can move my hips to

Something different, something fresh, something brand new  
Give me something to ignite my way  
'Cause I need it real badly today  
Won't you give me a little bit more? Give a little more  
Of your energy  
Need a little more  
Of your energy  
Give a little more  
Of your energy  
Need a little more  
So I can feel it through my pores She said  
Give me something I can move my hips to  
Something different, something fresh, something brand new  
Give me something to ignite my way  
'Cause I need it real badly today  
Won't you give me a little bit more?
