## Love Is On Its Way

## **Jonas Brothers**

Young hearts

I believe that we are not far

From becoming who we truly are

Love is on its wayDreamers

You see everything in color

While the world is getting darker

Love is on its waySo hold on another day

'Cause love is on its way

You'll find it's gonna be okay

'Cause love is on its wayIt's alright you'll find a brighter day

'Cause love is on its way

Leaders

Show us how to love each other

It could help us to recover

Love is on its wayLonely

I believe that you will find me

And together we will truly see

Love is on its way, yeahSo hold on another day

'Cause love is on its way

You'll find it's gonna be okay

'Cause love is on its wayIt's alright you'll find a brighter day

'Cause love is on its wayYeah!

Yeah!

Hold on another day

'Cause love is on its way

You'll find it's gonna be okay

'Cause love is on its wayIt's alright you'll find a brighter day

'Cause love is on its way

'Cause love is on its way

'Cause love is on its way
