

Livin' It Up

Hieroglyphics

Stepping, repping, next in line
Don't question mine when you're petrified
Don't bet your dimes, you're set to lose
Going against the grain you better check the news
Natural disasters will wreck your crews
We known to bounce back, get the whole amount back
Me and my crew we respect the dues
You can't count that, can't begin to clown that? fascinating, activate the truth
My parents made passionate love in test
