

Pressure (Mixed)

James Vickery & SG Lewis

Rain or shine
Speaking to you every night
You said you felt the same as I on the phone
And through my tainted eyes
I could see you by my side
I'm feeling like you played my mind all along
How could you fake it
When you knew I was naked
Told me you're falling
Told me you're obsessed with everything that I do
Feeling the pressure
Baby, know the pressure's only coming from you
Why are you waking up next to me
We don't even touch we just fall asleep
Said that you've been dreaming about this day
Now that I am here, you don't feel a way
Girl you're a vision of my design
Led me to believe that you were mine
Maybe you just need a place to stay
Someone to help you on your way
How could you fake it
When you knew I was naked
Told me you're falling
Told me you're obsessed with everything that I do
Feeling the pressure
Baby, know the pressure's only coming from you
Told me you're falling
Told me you're obsessed with everything that I do
Feeling the pressure
Baby, know the pressure's only coming from you
Pressure's only coming from you
