We're All in This Together

Ben Lee

woke up this morning i suddenly realized we're all in this together i started smiling 'cos you were smiling and we're all in this together i'm made of atoms you're made of atoms and we're all in this together and long division just doesn't matter 'cos we're all in this together i saw you walking in the city we're all in this together the city's changing 'cos we are changing and we're all in this together every twelve seconds someone remembers that we're all in this together in the kitchen of your rent-control apartment we're all in this togetherc'mon baby i don't mean to rush you i only wanted to reach out and touch you i've gotta start to open my heart i know you think about jumping ship before it sinks but we're all in this together ask a scientist its quantum physics we're all in this together and on the subway we feel like strangers but we're all in this together yeah i love you and you love her and she loves him but we're all in this togethery'know baby there's never been protection in all the history of human connection c'mon darling

it's alright to show me
you don't ever need to be lonely
once you start to open your hearti saw you crying
i started crying
cos we're all in this togetherand then religion
its a big decision
but we're all in this togetherwe're all in this together
