

This Devil's Workday

Modest Mouse

All those people that you know
All those people that you know
All those people that you know
 Floatin' in the river are logs
 I could buy myself a reason
 I could sell myself a job
I could hang myself on treason
All the folks I know are gone
All the people that you know
All the people that you know
All the people that you know
 Floatin' in the river are logs
 So I ate the wedding cake
'Til the whole damn thing was gone
And I'm gonna drown the ocean
Now ain't none o' that so wrong?
 All the people that you know
All those people that you know
All those people that you know
Gonna take this sack of puppies
 Gonna set it out to freeze
Gonna climb around on all fours
'Til all the blood falls out my knees
 All the people that you know
 All the people that you know
All those people that you know
 Floatin' in the river are logs
Well let's take this potted plant
 To the woods and set it free
 I'm gonna tell the owners
Just how nice that was of me
 I could buy myself a reason
 I could sell myself a job
I could hang myself on treason
For I am my own damn God
