

Out

Yung Bans

Straight up out the gutter, and I gotta get out
Only got one life trynna live it out
Took a new proach, had to take a different route
Took a new proach, had to take a different route
Straight up out the gutter, and I gotta get out
Only got one life trynna live it out
Took a new proach, had to take a different route
Took a new proach, had to take a different route
And I can't forget (yea)
I can not forget all the shit I did
Im just trynna win and (?)
Imma go hit again and a again (oh)
All these (?)
All my niggas wit me
If you ain't gonna shoot nigga why you with me
I dont think you hear me, nigga you ain't hear me
I just need respect you don't gotta feel me
But you better fear me
All my niggas will
Niggas talkin, I ain't fuckin wit em
Better tell ya nigga do the right thing
Cause he can lose his life when life change
Damn it was just life like a dice game
If a nigga try us he gonna die today
Straight up out the gutter, and I gotta get out
Only got one life trynna live it out
Took a new proach, had to take a different route
Took a new proach, had to take a different route
Straight up out the gutter, and I gotta get out
Only got one life trynna live it out
Took a new proach, had to take a different route
