

Any Way the Wind Blows

Home Free

Baby tonight it's gentle and light and coming from the rest.
Girl yesterday nearly blew us away, tomorrow's anybody's guess.

Oh, you never know.

Life's an uncertain road.

Take it high and take it low, but don't you worry baby.

I'll go anywhere, as long as you're there, any way the wind blows.

I'll be by your side for the rest of my life, any way the wind blows.

Girl I don't mind what zip code we find, our mail deliver to.

If I can wake up with you, that's enough.

Don't care about the latitude.

Oh, you never know.

Life's an uncertain road.

Take you high and take you low, but don't you worry baby.

I'll go anywhere, as long as you're there, any way the wind blows.

I'll be by your side for the rest of my life, any way the wind blows.

Hold on baby, hold on tight.

I'm taking this ride with you.

Baby.

I'm taking this ride, I'm taking this ride with you.

I'll go anywhere, as long as you're there (any way the wind blows).

I'll go anywhere, as long as you're there, any way the wind blows.

I'll be by your side for the rest of my life, any way the wind blows.
