

# Still Down (feat. Chevy Woods & Ty Dolla \$ign)

Wiz Khalifa

All my niggas is day ones  
I only fuck with A1's  
You niggas know what the gang is  
We young black and dangerous  
Still down with my day one niggas, hell yeah I'm still down  
Still down with the shit  
Still down with my A1 niggas, hell yeah I'm still down  
Still down, still downUh, they can't believe I'm still here  
Made a million dollars but i wouldn't replace it for nothin'  
A lotta niggas been killed here  
I done seen niggas get they whole shit blown off in public  
A lotta blood, sweat, and hope came from this block  
When floodin', a lotta dope came from this block  
But fuck it, I'm in my whip pushing buttons  
I think about the ones that dead and gone and ones that still thuggin'  
Uh, and they still down  
Got no love for them pussy ass motherfuckers, cause they still clowns  
Smokin real pounds, just bought a real home  
Me and my watch, both real stoned  
Pour some gin, man it's all about the ends  
New Ferrari or a Benz  
Get a joint and hold it in  
And I been with the same niggas since they was hitting licks and yeah they still with the shits  
All my niggas is day ones  
I only fuck with A1's  
You niggas know what the gang is  
We young black and dangerous  
Still down with my day one niggas, hell yeah I'm still down  
Still down with the shit  
Still down with my A1 niggas, hell yeah I'm still down  
Still down, still downYeah, Taylor Gang, Chevy  
Yo, tell them niggas we nothin' alike  
They see us and imitate what they want to be like  
What's hand and hand to them J's next day on the flight  
Shit, where i'm from if you're out too late then you're playing with your life  
Bet they feel how i feel, dinner out in Brazil  
My day ones'll see about you for me for real  
And the finest of fashion, makin' a statement  
Who thought it used to take me to get it now anything we can afford it  
Hate us so much that i'm cakin', i ain't mad at them at all

Just know about this dough, don't make em make you a John  
Huh, the same ones that been A1's  
A few niggas gone act different when that change come  
Yeah, horsepower from that kitchen vision  
It's taylor gang, when you they ask you tell them we the business  
Them niggas tryna copy us, they lookin' stupid  
Swear, dressing all crazy, boy you look like a Build-A-Bear  
All my niggas is day ones  
I only fuck with A1's  
You niggas know what the gang is  
We young black and dangerous  
Still down with my day one niggas, hell yeah I'm still down  
Still down with the shit  
Still down with my A1 niggas, hell yeah I'm still down  
Still down, still down Still down, down, down, down, down  
All day errday I come around, 'round, 'round, 'round, 'round, Ohh  
We stay down, down, down, down, down  
All day errday they say we wouldn't make it  
It's just me and my niggas  
Just me and my niggas All my niggas is day ones  
I only fuck with A1's  
You niggas know what the gang is  
We young black and dangerous  
Still down with my day one niggas, hell yeah I'm still down  
Still down with the shit  
Still down with my A1 niggas, hell yeah I'm still down  
Still down, still down
