

# Deth Starr

## Tenacious D

The world is fucking turning to shit  
The earth don't stand a chance  
Hurricane typhoon will destroy the city  
We've got to clean up the skies and recycle  
We've got to stop the overpopulation  
But most important of all  
We've got to build a Deth Starr  
Deth Starr, it's a fuckin' ship  
It's a son of a bitch, y'all, and we're building it  
It's gonna take us up into the sky  
We don't need the earth, we're gonna fuckin' fly sky high  
Deth Starr is a son of a bitch, y'all  
Gonna take us into outer space  
Get your shit together motherfucker  
We're gonna start a new human race in the sky  
In the sky!  
You know we will be rockin' on the Deth Starr  
Solar eclipse of the sky  
Everybody goin' insane  
Futuristic video games  
Everybody have a good time  
Synthesizing water to wine  
But how? How?  
I hired a nerd  
I fuckin' paid a nerd  
It is absurd, but I paid him to build it  
Cause I don't know how to build that shit, that's right  
There's a vacuum in space  
It fuckin' sucks your face  
Day or night, you gots to make it airtight  
You gotta build that shit, make it out of sight  
The fuckin' Deth Starr!  
You know we will be rockin' on the Deth Starr  
We will be Democratic on the Deth Starr  
There will be lots of bonin' on the Starr  
Havin' lots of sex with my friends  
Movin' on a virtual plane  
Fuckin' 'til I'm fuckin' insane, oh!  
Oh, yeah yeah yeah, right there (Oh)  
Bend over that space module (Oh yeah)  
Oh, zero gravity fucking (Oh yeah)  
Hey look, there's Uranus! (Oh that shit is tight)  
We got to build more Starrs  
We got to spread out far  
Seven strong, we gots to bang a gong  
But baby, hold up for now, there's something wrong  
What's that?  
That's a fuckin' squid  
An evil alien squid  
Join up ships, we got to let it rip  
We got to blow that bitch to another dimension  
Deth Starr!  
We got to build a hundred of them

Deth Starr!  
We spread across the galaxy  
Deth Starr!  
You know we will be rockin' on the StarrDeth Starr!  
We gotta build a million of them  
Deth Starr!  
We're spread across the galaxy  
Deth Starr!  
We must divide and conquer on the StarrDeth Starr!So we search the galaxy  
For other forms of life  
We got to drink their nutrients  
To sustain high quality of lifeSo we scoop up the creatures  
Then we put them in a geodesic dome  
But the question arises, my friend  
What have we become?Deth Starr!
