

# Superpowers

## Col3trane & GoldLink

[Intro: Col3trane]

Yeah, yeah

It made them sour, my superpower  
But it's you, you love it, you ask me how, well  
That's for me to know and you to find out, girl, yeah  
Me to know and you to find out, girl, yeah  
Me to know and you to find out[Verse 1: Col3trane]  
How I hit the stage, make the shit bounce  
Watch out before the floor gives out  
Booth coming down no doubt  
She said pour me up, it look like it's a drought  
The way she wanna keep on drinking, she gon' drown  
She acting, going crazy, yeah, she down to get down  
She wanna get in places where she know that ain't allowed  
It's only us around, whoa

[Chorus: Col3trane]

It made them sour, my superpowers  
But it's you, you love it, you ask me how  
That's for me to know and you to find out, girl, woo  
That's for me to know and you to find out, girl, uh yeah[Verse 2: Col3trane]  
Fire when we touch but you love the ice  
Put it on your neck, bet this gon' look nice  
Baby I could fly, take you on a flight  
Come look at my life, just see through my eyes  
We could do whatever 'cause I'll never die  
I'm gon' live forever, I don't need to try  
We ain't gon' get caught, fuck a alibi  
Super villains looking for my kryptonite[Chorus: Col3trane]

It made them sour, my superpowers  
But it's you, you love it, you ask me how  
That's for me to know and you to find-

[Verse 3: GoldLink]

Money, pussy, power, that's my superpower  
I'ma fuck around and fuck around and fuck for hours  
Ass so fat, like you strip and go to Howard  
Pussy sweet as ever and your attitude is sour  
I'm a dog, fuck around and put my paw in it  
Raw denim but a nigga ain't go raw with it  
Make some nigga lucky enough, he woulda helped you right  
And if you get me started we be fucking all night  
Fuck around and dog fight[Chorus: Col3trane]  
It made them sour, my superpowers

But it's you, you love it, you ask me how  
That's for me to know and you to find out, girl  
That's for me to know and you to find out, girl[Outro: Col3trane]  
Said that's for me to know and you to find out  
You could find out, you could find out  
Said that's for me to know and you to find out  
Said you could find out, you could find out
