

# Solid Gold (feat. Kira Divine & Marques Toliver)

[PNAU](#)

My best friend's always later  
She just moves with the weather  
She guides me with her patience  
And we breathe in together Some mystics call it wisdom  
When we move with the weather  
So change me with your nature  
But don't lose me forever Teaching all the kids and the other kids  
So they'll know  
So they'll glow  
Solid gold Teaching all the kids and the other kids  
So they'll know  
So they'll glow  
Solid gold  
My best friend's always later  
She just moves with the weather  
Regardless of the day  
Can we just take it together? The path is not determined  
When we move with the weather  
Don't tell me of your concepts  
I need love that's forever Hey, get it, get it, get it  
Our hearts move strange  
Move it, move it, move it, move it  
Feeling a little change  
Hey, get it, get it, get it  
Everyone bounce now  
Move it, move it, move it, yeah  
Teaching all the kids and the other kids  
So they'll know  
So they'll glow  
Solid gold Teaching all the kids and the other kids  
So they'll know  
So they'll glow  
Solid gold Hey, get it, get it, get it  
Our hearts move strange  
Move it, move it, move it, move it  
Feeling a little change  
Hey, get it, get it, get it  
Everyone bounce now  
Move it, move it, move it, yeah Teaching all the kids and the other kids  
So they'll know

So they'll glow  
Solid gold Teaching all the kids and the other kids  
So they'll know  
So they'll glow  
Solid gold Hey, get it, get it, get it  
Our hearts move strange  
Move it, move it, move it, move it  
Feeling a little change  
Hey, get it, get it, get it  
Everyone bounce now  
Move it, move it, move it, yeah
