

# Beautiful (feat. Diamond Eyes)

## Said The Sky

My love, don't leave  
My heart, will bleed It's been too long  
Since we said goodbye  
Your heart is buried deep inside  
The walls of every dream of mine  
So drift off  
I'll keep you safe tonight You are, you are beautiful  
You are, something unusual  
You are, you are beautiful  
You are beautiful to me  
(You're beautiful to me) My dear  
I'm here  
Just hold my t-shirt when you're not near  
I've been so lost  
Since we said goodbye  
So cold without you every night  
I need your blue eyes by me  
'Cause I see our future baby  
You are, you are beautiful  
You are, something unusual  
You are, you are beautiful  
You are beautiful to me (You're beautiful to me)
