

Apollo

Astronaut

Sunlight is not enough
We could burn like a flame through the atmosphere

Yeah

Starlight, it's calling us

Leave the ghosts of our past in the stratosphere

Oh yeah yeah,

It's calling us It's calling us It's calling us It's calling us

Sunlight is not enough

We could burn like a flame through the atmosphere

Yeah

Starlight, it's calling us

Leave the ghosts of our past in the stratosphere

Oh yeah yeah
