Frozen Lake

Buffalo Tom

I'm between the lines, just one more time Read it in a book I almost looked In frozen lake she comes and takes Give up my whole world, she's just a girl In my frozen mind, I'm stuck in time I can't get past this thing for one more spring See, she fits to me so easily I, I am borderline almost everytimeGive up my whole world She's a translucent girl In frozen mind, I'm lost in time I take one more breath, it's worse than death Turn on all the lights, alive with fright See, she fits to me too easily I, I am borderline almost everytime Give up my whole world She's a complicated girl In frozen mind, I'm stuck in time Give up my whole world She's a complicated girl In the frozen lake she comes and takesStuck in time
