

Constellation

Rebelution

Sometimes I wonder where you are
And if you miss my company
Go figure, I can see your stars
Your constellation right on top of me
What does your sign say today? I hope it mentions something of my name
And know that you're not tucked away
I pray that I'm not tucked away
Sometimes I wonder where you are
And if you miss my company
And when I look up to your stars
I can feel your loving energy
What does your sign say today?
I hope it mentions something of my name
And know that you're not tucked away
I pray that I'm not tucked away
