

Love Maker (Acoustic Version)

Saoin

Run away and play your games
Hide her well so I can't find you
I'll wait for summer to come
Then laugh as the trees burn down around you
Your body was just a test for me
And if I run as fast as I can
The thought of your memory
Will catch up with me, Will catch up with me I'm always late with my words
(we tried so hard, we tried so hard)
I should've told you, but I never really cared
(you always mislead me) [x2]
You always got the worst
It's ashame that you're still lying broken here
In this moment, everything just seems so clear
(because)
And her body was just a test for me
And if I run as fast as I can
The thought of your memory
Will catch up with me, Will catch up with me I'm always late with my words
(we tried so hard, we tried so hard)
I should've told you, but I never really cared
(you always mislead me)
I'm always late with my words
(we tried so hard, we tried so hard)
I should've told you, but I never really cared at all
When summer passes, I'll let go
(I'll let go)
And if you don't feel me, then just dig yourself out
And when summer passes, let me know so I can find meaning to live Cause I'm always late with
my words
(we tried so hard, we tried so hard)
I should've told you, but I never really cared
(you always mislead me)
I'm always late with my words
(we tried so hard, we tried so hard)
I should've told you, but I never really cared at all (All)
No, I never really cared at all
(All)
You always got the worst of me
