

# Long Song Away

Kevin Ross

You always got somewhere to go  
Your life is filled with revolving doors  
It's not a race when it comes to love  
Unless it's me that you're running from  
City girls want it all, but they never can wait  
Not so fast, you could lose control  
I know we live in the now, but we can start our own pace,  
take my hand, we can slow dance, slow dance to the radio  
'Cause forever is a long, is a long  
song away  
(Is a long, is a long, is a long song away)  
Forever is a long, is a long song away  
(Is a long, is a long...)  
So won't you please please let the record play (let the record play)  
Just let the record play (let the record play)  
You think that life is gonna pass you by  
And you feel that's there is just not enough time, time  
Why would you stress something that's out of your control? Control...  
Close your eyes and dream that we'll never grow old  
City girls want it all but they never can wait  
Not so fast, you could lose control  
I know we live in the now, but we can start our own pace,  
take my hand, we can slow dance,  
Slow dance to the radio  
'Cause forever is a long, is a long song away  
(Is a long, is a long, is a long song away)  
Forever is a long, is a long song away  
(Is a long, is a long...)  
So won't you please please let the record play (let the record play)  
Just let the record play (let the record play)  
Don't turn that down be patient with love  
Let's keep this in rotation, never let it fail  
Never let it go  
'Cause forever is a long, is a long song away  
(Is a long, is a long, is a long song away)  
Forever is a long, is a long song away  
(Is a long, is a long...)  
So won't you please please let the record play (let the record play)  
Just let the record play (let the record play)
