

# Far Away

## Breaking Benjamin & Scooter Ward

Hope stopped the heart  
Lost beaten lie  
Cold walk the earth  
Love faded white  
Gave up the war  
I've realized  
All will become  
All will arise Stay with me  
I hear them call the tide  
Take me in  
I see the last divide  
Hopelessly  
I leave this all behind  
And I am paralyzed  
When the broken fall alive  
Let the light take me too  
When the waters turn to fire  
Heaven, please let me through  
Far away, far away  
Sorrow has left me here  
Far away, far away  
Let the light take me in Fight back the flood  
One breath of life  
God, take the earth  
Forever blind  
And now the sun will fade  
And all we are is all we made  
Stay with me  
I hear them call the tide  
Take me in  
I see the last divide  
Hopelessly  
I leave this all behind  
And I am paralyzed When the broken fall alive  
Let the light take me too  
When the waters turn to fire  
Heaven, please let me through  
Far away, far away  
Sorrow has left me here  
Far away, far away  
Let the light take me in All will fall for once  
I become the lost

All will fall for once  
I become the lost When the broken fall alive  
Let the light take me too  
When the waters turn to fire  
Heaven, please let me through  
Far away, far away  
Sorrow has left me here  
Far away, far away  
Let the light take me here  
Far away, far away  
Let the light take me in  
Far away, far away  
Let the light take me in
