

Never Wanna Let You Go

Megan Nicole

Quit playing games
Don't lead me on
Make me feel like I'm your one
When you're gonna let me go
Why won't you give me a chance
To show you every side of me
And how we're meant to be 'Cause you're too scared to let me in
And let this love begin Never wanna let you go
Never wanna be alone
Tell me how it ought to be right now
Never wanna leave your side
Never wanna say goodbye
Tell me how it ought to be right now
I see the way you look at her
The way you used to look at me
Now I can finally see
Broken hearts and broken dreams
There will never be a you and me
Can't find the air to breathe 'Cause you're too scared to let me in
And let this love begin Never wanna let you go
Never wanna be alone
Tell me how it ought to be right now
Never wanna leave your side
Never wanna say goodbye
Tell me how it ought to be right now Cause I'm falling
Do you still care?
Cause I'm falling
Will you be there?
Never wanna let you go
Never wanna be alone
Tell me how it ought to be right now
Never wanna leave your side
Never wanna say goodbye
Tell me how it ought to be right now
Never wanna let you go
Never wanna be alone
Tell me how it ought to be right now
Never wanna leave your side
Never wanna say goodbye
Tell me how it ought to be
Tell me how it ought to be right now
