

It Ain't California

Kip Moore

[Verse 1]

The world's standin' still on the [?]
The vampires hang out on Mohalan Drive
Heartbreaker smiles everywhere you turn
Some learn to fly, some crash and burn[Chorus]
Yeah the sun still shines all the time and the sky's still blue
And the stars shine bright every night like they used to
Oh but it ain't California, no it ain't California
No it ain't California without you[Verse 2]
American girls with those golden tans
Runnin' down their dreams buried in the sand
Still bettin' it all on that Hollywood sign
Hell even the losers get lucky sometimes

[Chorus]

Yeah the sun still shines all the time and the sky's still blue
And the stars shine bright every night like they used to
Oh but it ain't California, it ain't California
No it ain't California without you[Verse 3]
Since you been gone the music keeps on goin'
Would've followed you to the great wide open
Me and Mary Jane, yeah we shed some tears
We're both free fallin' without you here[Chorus]
Yeah the sun still shines all the time and the sky's still blue
Yeah the stars shine bright every night like they used to
Oh but it ain't California, no it ain't California
No it ain't California without you

[Outro]

(The stars shine bright every night, just like they used to)
It ain't California, No it ain't California
No it ain't California without you
(The stars shine bright every night, just like they used to)
It ain't California, No it ain't California
No it ain't California without you
