

We Gon' Love Tonite

Calvin Richardson

I still waiting for some time with you alone
Girl I hope youre ready, here I come
We wont stop making love until you done
We can do it all night, let go until the pore is on
Huu, theres a spirit you placed your body fits to go
Just wanna get wrap, play down the door Lets take the pressure of each other
Brake the rules and done whatever
Ill start with your hands worked out til you toast
Get everything in between, make the music low
Gonna heal those mours you have
Supply your needs fot tonight
Cuz tonight girl Im make your body happy
I wanna do this thing and replace it
No question tonight baby, just stay stick, got me crazy
We gon love tonight baby,
I got your favorite icecrem, but little honey remain
I guess all in the right place baby
We gon love tonight baby
Said you want it gentle with me
Cuz its like it go the chemistry
Got some real sexy role playing and turn you on
Should I tell you about it
I guarantee Ill be as gental unless they come
Huu baby when you set every day my body
I think its time to twist off floor
This type are really frunstations
Baby, tonight just give me anticipation for elevation
Lets take it to beat so incredible
Tell baby, baby Im right here besinde you never let you go girl
Gonna heal those mours you have
Supply your needs fot tonight
Im gonna make it come and get out
I wanna do the thing and face it
No question tonight baby, just stay stick
Got me crazy,
We gonna start tonight baby,
I got your favorite icecrem, but little honey remain
I guess all in the right place baby
We gon love tonight baby Ooh come give me my darling
Got that dudels safe country
Know that you need me, know that I want you
Your satisfaction guatarantee, and I hold it girl

Ooh when I get sentimental Ooh, I wanna do this thing baby
No pressure this night baby
Got you crazy
We gon love tonight baby
I got your favorite icecream, but little honey remain
I guess all in the right place baby
We gon love tonight baby No question tonight baby
Just stay stick, got you crazy
I got your favorite icecream, but little honey remain
I guess all in the right place baby
We gon love tonight baby
Yeah, gona miss you baby
Im gonna love you down
We gon love tonight baby
