

# Introducing the Business

## Mark Ronson & The Business Intl.

This is the business, prepare to take witness  
To the type of ish that we on, we on, we on  
By the time that you get there, we already been there  
We done packed up and we gone, we gone, we gone  
This is the business, prepare to take witness  
To the type of ish that we on, we on, we on  
'Cause this is the business right now  
Come witness the business right now  
Okay den, and you can take some notes from me  
Grab a cheat sheet, take a couple quotes from me  
You won't defeat thee business  
You're better off trying to get the stank off of chitlins  
Ya kidding?  
So grab a suit and tie, salute the guy, take a seat  
We'll review your resume and see just what we have this week  
But in the meantime make sure you log on  
To markronsonandthebusiness.com  
Yeah, let us build a better life with ya  
Submit your application, and we'll be right with ya  
And for the ladies make sure you send us a nice picture  
Beside the right qualifications, and we might pick ya  
Okay den, let's keep this strictly  
professional  
Take my business card and call at respected hours  
This is larger than what large is  
The true definition of what being in charge is  
This is the business, prepare to take witness  
To the type of ish that we on, we on, we on  
By the time that you get there, we already been there  
We done packed up and we gone, we gone, we gone  
This is the business, prepare to take witness  
To the type of ish that we on, we on, we on  
'Cause this is the business right now  
Come witness the business right now  
This is the type of business that you could put your nose in  
Pack a big enough bag that you could fit some clothes in  
Long hours, dozin', gotta get them figures straight  
Young Lamont Dozier, I'm working on some real estate  
Or Chris Blackwell  
Gotta get them stacks well  
United States Postal Service lame  
We stack mail  
Save some instruments 'cause we'll give you the blues hater  
On your front porch in the morning like the newspaper  
And the headline is that we runnin' shit  
And we the exact crew that you don't wanna hate  
And the headline is that we runnin' shit  
Introducing the business, the business  
This is the business, prepare to take witness  
To the type of ish that we on, we on, we on  
By the time that you get there, we already been there  
We done packed up and we gone, we gone, we gone  
This is the business, prepare to take witness

To the type of ish that we on, we on, we on  
'Cause this is the business right now  
Come witness the business right now
