

Coma

Bullet for My Valentine

[Verse 1]

There's nothing inside
Not dead or alive
No feeling to find
Like I've been hypnotised
How do I see
A light in the dark
When nothing is real
And I don't hear a heart
I can't wake up from this cold dark state
Of hopelessness, so numb to everything

[Verse 2]

It's under my skin
Living within
I'm chained to my mind
So undignified
Run from the tide
That's rising so high
Come wash me away
'Cause I've no will to fight[Pre-Chorus]
Time won't wait for me to bend and break
Don't want to be so numb to everything
(In this coma!)

[Chorus]

I'm free falling when the black hole opens
Vicious circle eating me alive
I keep swimming through an empty ocean
In slow motion, in slow motion
I'm free falling when the black hole opens
Vicious circle eating me alive
I keep swimming through an empty ocean
In slow motion, in slow motion[Bridge]
Time won't wait for me to bend and break
Don't want to be so numb to everything
(In this coma!)[Chorus]

I'm free falling when the black hole opens
Vicious circle eating me alive
I keep swimming through an empty ocean
In slow motion, in slow motion
I'm free falling when the black hole opens
Vicious circle eating me alive
I keep swimming through an empty ocean

In slow motion, in slow motion
I'm free falling when the black hole opens[Outro]
In this coma!
(I'm free falling when the black hole opens)
In this coma!
