

Lost On the Stoop

Daniel Powter

Shed off and peel
I'm in no shape or form
You're just a reject coming down for more
When two are receiving
You know I could be there
Soon you're laughing
Soon you're laughing my way
Your daddy don't get you
He'd been a big mess
Soon you're laughing
Soon you're laughing my way
You're urban, you're complete
And you know I will be there
Soon you're laughing
Soon you're laughing your way
When you're lost on the stoop
When you fall out of bounds
Yeah, you could be leaves down, down
And it's always your fault
You get lost in yourself
Yeah, you could be leaves down, down
And I can find you
Once you know 'bout this plan
And now I can find you
Once you insult the man
And yeah, you like this trash talking
Washing you down
And yeah, you like this trash talking
Moving me around
When two are deceiving
You know I could be there
Soon you're laughing
Soon you're laughing your way again
When you're lost in the stoop
When you lie down on bounds
Yeah, you could be leaves down, down
But it's always your fault
You get lost on the stupid things
When you're leaves down, down
Well, I can find you lonely
Without a plan
And now I can find you
Once you insult the man
And yeah, you like this trash talking
Washing you down
And yeah, you like this trash talking
Moving through all, stand down again
Now when you're lost in the stoop
When you lie down on bounds
Yeah, you could be leaves down, down
But it's always your fault
You get lost on the stupid things
When you're leaves down, down
