

# Lost On the Stoop

Daniel Powter

Shed off and peel  
I'm in no shape or form  
You're just a reject coming down for more  
When two are receiving  
You know I could be there  
Soon you're laughing  
Soon you're laughing my way  
Your daddy don't get you  
He'd been a big mess  
Soon you're laughing  
Soon you're laughing my way  
You're urban, you're complete  
And you know I will be there  
Soon you're laughing  
Soon you're laughing your way  
When you're lost on the stoop  
When you fall out of bounds  
Yeah, you could be leaves down, down  
And it's always your fault  
You get lost in yourself  
Yeah, you could be leaves down, down  
And I can find you  
Once you know 'bout this plan  
And now I can find you  
Once you insult the man  
And yeah, you like this trash talking  
Washing you down  
And yeah, you like this trash talking  
Moving me around  
When two are deceiving  
You know I could be there  
Soon you're laughing  
Soon you're laughing your way again  
When you're lost in the stoop  
When you lie down on bounds  
Yeah, you could be leaves down, down  
But it's always your fault  
You get lost on the stupid things  
When you're leaves down, down  
Well, I can find you lonely  
Without a plan  
And now I can find you  
Once you insult the man  
And yeah, you like this trash talking  
Washing you down  
And yeah, you like this trash talking  
Moving through all, stand down again  
Now when you're lost in the stoop  
When you lie down on bounds  
Yeah, you could be leaves down, down  
But it's always your fault  
You get lost on the stupid things  
When you're leaves down, down
