

# Monsters (feat. JT Music, Swiblet & Tohru)

## Kyle Allen Music

We promise we're not monsters  
We're not monsters  
Hope we're not monsters to you  
You will be just fine  
And you won't die  
The lies that we told you weren't true  
We promise we're not monsters  
We're not monsters  
Hope we're not monsters to you  
You will be just fine  
And you won't die  
The lies that we told you weren't true  
He was one of us, testing games  
But something happened that one day  
He was still and his body didn't shake  
Was he asleep or was he awake?  
Who are you talking to?  
And what is in your view?  
What have you been through?  
Jeremy... This isn't you... I'm logging these tapes  
Because an abnormality  
Hacked in the game  
Something that we couldn't see  
It's watching you now  
And it's learning how  
To escape it's world somehow  
What is this thing?  
And what does it want from us?  
Waving at me  
Is it something I should trust?  
Guess I'll just play  
And test the game  
Hoping that it goes away  
We promise we're not monsters  
We're not monsters  
Hope we're not monsters to you  
You will be just fine  
And you won't die  
The lies that we told you weren't true  
We promise we're not monsters  
We're not monsters  
Hope we're not monsters to you  
You will be just fine  
And you won't die  
The lies that we told you weren't true  
There was a lot of ink on the ground  
With a mask I had just found

There he was with a visor all around  
Standing there without a sound Who have you turned to?  
How is this even true?  
It's stuck to you like glue  
I'm getting Deja Vu What do I feel?  
And how does it seem so real?  
I made a deal  
To start and finish this ordeal  
Something is wrong  
And I hear a song  
Something's where it can't belong I won't be here long  
It's attached itself to me  
It's motives are strong,  
It's made it so I cannot see  
Collect all the tapes  
And come join me  
To Freddy's Funtime family Hey kid, are you having fun?  
I know I am!  
I promise I'm not scary  
Even though I've got a big grin Oh it's your birthday! How old are ya?  
How do you do?  
You wanna see my friends?  
They're fantastic! YAHOO! We promise we don't bite  
The only thing we like is cake  
You rarely get a chance like this  
To say no is a big mistake Oh they're backstage  
If you want to see them, come on through  
There's lots of fun in Freddy's world  
It's time for your big debut! Welcome to the back  
Hey sorry it's pitch black  
Let me get some lights on  
So we can get on track! This is Chica, then there's Bonnie  
Foxy and Freddy  
Someone needs to fill his shoes  
So we can get ready!
