

S.E.X.

Madonna

Sex, what you know about sex Tell me what you know about sex
Sex, what you know about sex
Oh my God, you're so hot
Pull my hair, let me get on top Oh my God, soaking wet
Back and forth 'til we break the bed
OMG

When you read my mind, get down and discover me I'm an open door, let you come inside of me

Wanna put my hands around your neck
Gonna take you to a place that you will not forget
Sex, what you know about sex
Tell me what you know about sex
Sex, what you know about sex
Oh my God, you're so hot Pull my hair, let me get on top
Oh my God, soaking wet
Back and forth 'til we break the bed
You got a bad attitude I like to grind it on you
And when I let you put it on me
You better give me what I want baby
Oh my God, let me clean your wound I can be your nurse
Got the antidote, please show me where it hurts
Can you be my father, tell me what to do
You can punish me and maybe I will punish you
Sex, what you know about sex, tell me what you know about sex
Sex, what you know about sex

OMG

There's no shame in feeling
As long as it feels right (Oh my God)
Our love this is natural
There's nothing wrong with, nothing wrong with that
Sex, what do you know about sex
Tell me what you know about sex
Sex, what do you know about sex
