

Closer To Your Heart (feat. Cody Carnes)

[Kari Jobe](#)

I get lost inside this wonder
Cause there's so much to discover
New dimensions of your glory
And I've only seen a glimpse You keep drawing me, you keep drawing me
Closer to your heart
You keep calling me, you keep calling me
Closer to your heart And every facet of your beauty
My heart responds with holy holy
Oh you never cease to amaze me
And it's only just the start
Oh it's only just the start
You keep drawing, you keep drawing me
Closer to your heart
You keep calling me, you keep calling me
Closer to your heart You keep drawing me, you keep drawing me
Closer to your heart
You keep calling me, you keep calling me
Closer to your heart Closer to your heart Holy
I get lost in your love, I get lost in your love
Holy
Full of awe and wonder, full of awe and wonder
Holy
I get lost in your love, I get lost in your love
Holy
Full of awe and wonder, full of awe and wonder
You keep drawing me, you keep drawing me
Closer to your heart
You keep calling me, you keep calling me
Closer to your heart You keep drawing me, you keep drawing me
Closer to your heart
You keep calling me, you keep calling me
Closer to your heart
