

# Varsity Drag

## Tito Puente

(Ohh) (Yeah yeah) Admit it  
We're finished  
You don't want me no more  
(No)  
Like a night mare  
I lived it  
It was too big to ignore  
(Ooh)  
I hear the sounds  
But they pass me by.  
My hazard lights are flashing  
Somebody, anyone -  
Help cause it's an emergency.  
Someone just wounded my heart.  
So help  
It's like a bad surgery  
And now it's time to recharge.  
I'm starting over  
Taking  
One, two, baby steps.  
Three, four, baby steps.  
Five, six, baby steps.  
I'm starting over again. Abandoned, yeah I'm crying.  
It's like you left me so dead  
(So dead, so dead)  
I'm so broken, my love's frozen.  
How do you live with regrets  
(Oh woah)  
I see the memories flash before my eyes.  
My tank is running empty  
Somebody rescue me.  
Help cause it's an emergency.  
Someone just wounded my heart.  
So help  
It's like a bad surgery  
And now it's time to recharge.  
I'm starting over  
Taking  
One, two, baby steps.  
Three, four, baby steps.  
Five, six, baby steps.  
I'm starting over

Taking  
One, two, baby steps.  
Three, four, baby steps.  
Five, six, baby steps.  
I'm starting over again.It's unexplainable  
Kinda unobtainable  
When the person you love ain't enough.  
I feel so pitiful  
Look at my face  
You'll know the pain is in my eyes.  
I need some help.Help cause it's an emergency.  
Someone just wounded my heart.  
So help  
It's like a bad surgery  
And now it's time to recharge.  
Help cause it's an emergency.  
Someone just wounded my heart.  
So help, it's like a bad surgery  
And now it's time to recharge.  
I'm starting over  
Taking,  
One, two, baby steps.  
Three, four, baby steps.  
Five, six, baby steps.  
I'm starting over  
Taking,  
One, two, baby steps.  
Three, four, baby steps.  
Five, six, baby steps.  
I'm starting over again.
