

Wake Up Love (feat. Iman)

Teyana Taylor

Oh, oh, oh
Oh, oh
Yeah One thing's for certain
Need you right here in my arms, baby I'm yearnin'
But I think I got a bone to pick with you (You)
Lately I've been wonderin' what's with you (You)
I need you to hear me, baby Wake up love (Wake up, wake up love)
These sheets won't comfort me
Please, wake up love (Wake up, wake up love)
I might just comfort me
But I just need you holdin' me
Show me some attention
I want you to wake up love (Wake up)
Hear me, baby
It's like a turban
I can wrap my head over on this shit but
I need you brownskin
I'm like India when I'm not fixed on you, woah, woah
Know how to keep it straight, it's you, ooh, woah, ooh, woah, oh I want you to wake up love
(Wake up, wake up love)
These sheets won't comfort me
Please, wake up love (Wake up, wake up love)
I might just comfort me
But I just need you holdin' me
Needin' your affection
Wake up love (Wake up)
Hear me, baby
Bright lights are only used for the dark, lil' mama
Drama gon' play her part, pain is hard, lil' mama
He just give you touch, hung up on the walls
You wanna set it later then cool, we takin' it all lil' mama, it's real
I'd save you from a burnin' building
I wear the burns as gold medals, turn you on to remember
Even though you scorpio, I take this so I know the feelin'
But fuck it, let's burn this bitch to ceiling, I'm really fuckin' with you
It's a lot more than a make up after break up
So don't fight back, just write back, baby
I know I demand a lot and you don't like that
So let's just leave the baggage, I'ma hop us on this flight back
You like that, right? I want you to wake up love (Wake up, wake up love)
These sheets won't comfort me
Please, wake up love (Wake up, wake up love)

I might just comfort me
But I just need you holdin' me
Needin' your affection
Wake up love (Wake up)
Hear me, baby
