

# Slow Your Roll (feat. Aloe Blacc)

## Everlast

You wanna see a dead body?  
You wanna see a dead body? Firestarter  
Born to die martyr  
Blow your whole armada  
Clear out the water  
Sun dried harder  
Hell's much hotter  
Top notch shutter  
Peckerwood da-da-da  
Some gotta love it  
Some gotta get above it  
Push a man, shove it  
Till it ain't enough of it  
Spike in your vein  
Are lighting in your pain  
But that habit gon' cost your soul  
So slow your roll  
(You wanna see a dead body?)  
Stumbling across the road  
A couple baggy from the from the man with the goat  
You my catch a high buckshot low  
Now you know  
(You wanna see a dead body?)  
Living down on a skeet road  
Just waiting till they tag your toe  
Now you know  
How it go  
Death comes slow  
Oh, I wanna know  
Is there a place up in heaven  
Waiting for me when it's time to go, woah  
Oh, I wanna know  
When I fly to the sky are there's enemy down below  
I wanna know  
(You wanna see a dead body?) Down by the tracks  
The foot of the hill  
The junkie cats gathered  
To cure their ills  
The hookers and the trannies  
Sell the thrills  
Pimps in the cadillacs countin' their bills  
I get chills

(You wanna see a dead body?)  
Is this a corpse in the alley, just under the stairs?  
The hookers gettin' beaten, but no one cares  
They just stare  
(You wanna see a dead body?)  
Who wanna [?] if you dare  
The streets are watching and you best beware  
People are trife, life ain't fair  
Don't get scared  
(You wanna see a dead body?)  
Tell me how much can you really bear  
Before you caught up in the blinding glare  
Love is kind, love is cold  
Love is rare  
Oh, I wanna know  
Is there a place up in heaven  
Waiting for me when it's time to go, woah  
Oh, I wanna know  
When I fly to the sky are there's enemy down below  
I wanna know  
I said I wanna know, yeah  
Is there a place up in heaven  
Waiting for me when it's time to go, woah  
I wanna know  
I said I wanna know, yeah  
When I fly to the sky are there's enemy down below, woah  
I wanna know, yeah  
(You wanna see a dead body?)
