

TIME

Prince

This song about time
Say its about time
About time that u
R aroundI think its 'bout time
That I got time
Alone with uAlone with uI think I'm running out of patience
I think I'm running out of lies
I think its 'bout time I tell the truth
Instead of these alibi's
Well...
I think its 'bout time
That I got time
Alone with u
Cuz ure so fine
When I get mine
Baby u can tooNo more peace and quiet
I wonder why
A party full of drunken fools
I betcha some will b the rushing tide
Splashin all over u
I don't wanna work another day baby
No no stay with me
I wish u coulda stay with me
Stay with me
I don't think it matters anyway
It don't matter girl
For u I'm as rich as I could be
Baby babyI think its 'bout time
That I got time
Alone with u
I know u know
Cuz ure so fine
When I get mine
Baby u can too
Sho 'nuffSugar well I'm thinking
That u really need 2 b my pet
And let me put u in my little cage
C'mon
Im sick and tired of playing hard to get
With an animal that's half my age
Sugar well well
My heads a little dizzy

My heads spinning 'round and 'round
Another dirty hotel room
Another lonely town I need some time to rest?
I need some time with u This is what it feels like I know what I wanna do This is what it feels
like Gonna lemme tell u one time I think its 'bout time
That I got time
Alone with u
Cuz ure so fine
When I get mine
Baby u can too Oh oh I think I need u 2 b my girl
Travel with me around the world
Baby baby
So no paper
This works out fine
But not half as fine
As when I get time
With u Sugar have u heard I think its 'bout time
That I got time
Alone with u
Cuz ure so fine
When I get mine
Baby u can too Keep breakin u down. Down down down I think its 'bout time
That I got time
Alone with u
Cuz ure so fine
When I get mine
Baby u can too U, u, u Baby baby u can to! Ooh ooh oh...
