Daihaminkay

Fool's Garden

Daihaminkay

Daihaminko

I can't explain

Why is it so?My adrenaline

Is on a level so high

And when you touch

Me now I dieMy love

Shoot me away to the stars above fly

I've swallowed

To much in days gone by

But I won't swallow

Anymore I tried to find a light inside this hollow

Until you came

There was no one to follow

Daihaminkay

Daihaminko

What does it mean?

I do not knowI do not care

On such a beautiful day

Daihaminkay

I hear you sayYes I am ready my love, I...Fly

I've swallowed

To much in days gone by

But I won't swallow

Anymore I tried to find a light inside this hollow

Until you came

There was no one to follow

Until you came the sky was grey

And now you brighten up this hollowAnd I fly

I've swallowed

To much in days gone by

But I won't swallow

Anymore I tried to find a light inside this hollow

Until you came

There was no one to followWe are ready for the real life

We are ready for the real life, baby

We are ready for the real life

We are ready for the real life, babyAnd I fly

You can call this world

And it will hear you
