

# Waste

## Foster the People

I'll hold your hand  
When you are feeling mad at me  
When the monsters they wont go  
The windows, they wont close  
I'll pretend to see what you see How long, I say how long  
Will you re-live the things that are gone?  
The devil's on your back  
But I know you can shake him off And every day that you want to waste  
That you want to waste, you can  
And every day that you want to wake up  
That you want to wake, you can  
And every day that you want to change  
That you want to change, yeah  
I'll help you see it through  
'Cause I just really want to be with you  
You know its funny  
How freedom can make us feel contained  
When the muscles in our legs  
Aren't used to all the walking  
I know if you could snap both your fingers  
Then you'd escape with me  
But in the meantime I'll just wait here  
And listen to you when you speak, or scream And every day that you want to waste  
That you want to waste, you can  
And every day that you want to wake up  
That you want to wake, you can  
And every day that you want to change  
That you want to change, yeah  
I'll help you see it through  
'Cause I just really want to be with you  
The truth cuts us and pulls us back up  
And separates the things that look the same  
then you can fight it off, you can fight it off, you can And every day that you want to waste  
That you want to waste, you can  
And every day that you want to wake up  
That you want to wake, you can  
And every day that you want to change  
That you want to change, yeah  
I'll help you see it through  
'Cause I just really want to be with you
