

Slow

Pac Div

Move that in slow motion, do that for me baby You just stepped into the function
Thicker than a snicker looking like a million bucks
Sorry I'm hella faded but you cake like duckie
Hides from behind it's like starring in an onion
'Bout to lose my mind let me touch something
Stop teasing me, stop teasing me
Let me fuck or something
Skip all the conversation I'm not trying to be your husband
Plus married couples fighting and I ain't in all that fussing
And neither should you be
Moving in slow motion while I'm feeling on that booty
Getting head on the sofa while I'm rolling out my doobie
Who we it be like a fly porno movie starring me
Big mems in me stick and juicy

Move that in slow motion, do that for me baby Go ahead nigga savor y'all boys love to throw
that cake
When I'm to the script put at work
Birthday suit get straight grown
Went from chicken heads giving head out by the payphones
Getting breezy put the same bitches out a gravestone
I stay on, peeko dipping mind be on that seat no flipping
Game HD when I pull up she can see the difference
I don't know, I suppose I just pillagrino bitches
Run 'em like water hitting corners got lucini
Hitting cornbread squatin lounges got you looking thick and true
Ain't no substitute for what this remmy and this dick will do
What it do, what it don't take a nap and fuck some more
Break your back then puff my smoke
Freaky thing she love slow mo

Move that in slow motion, do that for me baby Puffing loud bright and early
In the clouds like I'm curvy
Strutting on my grown man's
Since I'm 'bout to hit my 30's
Man these hoes is so dirt
They be running around with herpes
Man these hoes is so thirst
Think they running out with slurpies
Anyhow, mini mouse with the skimpy blouse
Look me in my eyes
Like she wanna lick me down get me mouth
Got a lady now, can't be shady now
No sir, now she proceed to break it down closer

No sir, Houston up in Onyx I ain't drinking give me tonic
While this chick is all upon me
Tryna pop it, stop it
Lay my ass in and reject an invitation
'Cause my mind is saying no
But my mini me is saying Move that in slow motion, do that for me baby
