A Different Kind of Christmas

LeAnn Rimes

The lights around the Christmas tree don't burn as bright
And all around the world it isn't a silent night
Outside I hear the voices sing the sweetest sounds of caroling
But somehow there's a sadness in the song
In our hearts we know that something's wrongChorus:It's a different kind of Christmas
In a different kind of world
Even though it looks the same

Even though it looks the same Everything has changed

It's a different kind of ChristmasChildren opening gifts with wonder and surprise

I wish that I could still see through such innocent eyes

Lucad to feel so safe inside I had a place to run and hide

I used to feel so safe inside I had a place to run and hide In my daddy's arms I felt secure

No one can protect us anymoreChorus:It's a different kind of Christmas
In a different kind of world

Even though it looks the sameEverything has changed It's a different kind of ChristmasSending cards that talk of peace and love and cheer Oh that's what we need if we'd only believe

It would be! Chorus:

It's a different kind of Christmas
In a different kind of world

Even though it looks the sameEverything has changed Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
